

Premium class shooting range systems

Since more than 40 years the name „Eigenbrod“ stands for high-quality shooting range systems which are designed for a long lifetime. Our systems are produced carefully by hand to customer's specifications from enhanced materials. Our systems are maintenance-free even at continuous utilization. All this assures a perfect functioning even under the most adverse conditions.

So the shooter can concentrate on what's most important: shooting!

The running target system for air rifle 10m is constructed according to the provisions of the ISSF and the DSB and provides the possibility to use the included bullet trap for the normal air rifle disciplines as well. The system is made of robust lacquered steel and the special rail system guarantees that the target runs vibration-free through the corridor.

With the included controller all velocities can be called up in accordance to the regulations of the ISSF and the DSB.

Technical details:

- Entire opening: 2m
- Fully electronic control board for constant monitoring of the running speed in the corridor
- 2 running speeds:
 - High-speed gear of 2,5 seconds
 - Low-speed gear of 5 seconds
 - Mix-Programme
- Delivery inclusive remote control with connection cable 6m
- System made of robust steel
- scratch-resistant lacquer
- Power supply 230V, 50Hz

Optional:

- Return line to the shooter within 7 seconds
- Integrated target lighting
- mechanical guide unit for easy swiveling during disuse
